Multicultural Care is a registered NDIS provider and offers personalised care services to people with a disability so they can continue to have choice and control over their lives.

We assist people to receive supports funded by their NDIS Plan, as well as those who would like to access services privately. All our fees are in line with the National Disability Insurance Agency's Pricing Arrangements. Our services are flexible, and our bilingual staff are all qualified and dedicated to delivering outstanding culture-based care in a language you and your family understand.

Fees for services we provide are in line with NDIA price limits, so there are no hidden costs.

We also offer private pricing for self-funded services.
